

How lucky we are to be living here in the United States of America. The Freedoms that we enjoy are marveled by people in many lands. As Finnish-Americans we should realize that our family heritage is so unique and special. Each person has traveled and come from so many directions and has experienced different life experiences. One thing that stands out in Finnish American heritage was the importance that families placed on education. For immigrant families, the language barrier of learning a new language was a difficult task. Education and learning was recognized as a way for advancement and a way to improve your lot in life.

Our FACC members wish to learn more about the tradition of Finnish and Finnish-American culture. That spirit of determination, the love of country, a patriot in good standing, and the form of individualism that each person is to be responsible for his actions, all help to make up a learning experience.

The Mission Statement of The FACC is to educate about, support, preserve, cultivate and perpetuate Finnish American Culture and Heritage.

The By-Laws of the FACC is to give clarity and direction for making plans and the goals of move forward. The Finnish American Culture Corp. is a 501(c)3 entity that is a nonprofit corporation as defined by IRS. Donations made to this organization are tax deductible to the extent of the tax law.
